Gas South Residential Fixed Rates Lowest in Georgia for August; Lowest Rates Company Has Ever Offered

Georgia Public Service Commission data show Gas South lowest in state for residential 6, 12 and 18-month fixed rates; existing customers pay even less

(Atlanta – August 7, 2009) – New natural gas rates published by the Georgia Public Service Commission (PSC) show an important reason Gas South is the fastest-growing natural gas marketer in Georgia: it is not only offering the best fixed rates in Georgia, but the lowest fixed rates in the state’s deregulated market since 2003.

According to the PSC’s monthly natural gas rate survey for August 2009, Gas South’s residential fixed rates for new customers are the lowest in the state: \$0.78 per therm, 6-month fixed; \$0.79 per therm, 12-month fixed; and \$0.87 per therm, 18-month fixed. The rates are the lowest that Gas South has offered since the company commenced operations in January 2006.

Gas South offers its existing residential customers a two-cents per therm discount on its published fixed rates, so they receive even lower rates.

“We are a very customer-focused company and are always looking for ways to show people that we value their business,” said Kevin Greiner, CEO of Atlanta-based Gas South. “We are the only gas marketer in Georgia that offers discounted fixed rates to our existing customers. It is our way of saying ‘Thank you for continuing to choose Gas South as your natural gas provider.’”

Greiner noted that in a deregulated market such as Georgia’s, consumers are free to choose a different natural gas provider if they are not satisfied with their current provider.

“The wide range of rates offered by Georgia’s natural gas suppliers shows how important it is for people to shop around for a natural gas provider, to compare rates and value,” he said. “We have built our reputation on offering simple and very competitive rate plans backed by great customer service. I encourage Georgia residents to learn about our rates, programs and customer service when choosing a natural gas company.”

To take advantage of these historically low rates, call Gas South at 1-866-563-8129, or sign up online at www.gas-south.com.

Note: Gas South bills include a monthly customer service fee of \$5.95 or \$9.95 (depending on credit history), and – like all natural gas providers in Georgia – AGL pass-through charges and applicable taxes.

###

ABOUT GAS SOUTH:

Gas South is one of Georgia’s largest natural gas suppliers, serving approximately 225,000 residential, business and governmental customers across the state. Based in Atlanta, Gas South is locally owned and operated, with all customer service provided through Georgia-based call centers. Gas South strives to help its customers every day with clear prices, great rates and outstanding service.
