### **Union City Partners with Gas South to Offer Discounts for Residents and Businesses**

*City partner program allows Union City residents to receive discount of two cents per therm off all of Gas South's standard rates*

(Atlanta – September x, 2011) – Union City leaders today announced a new partner program with local natural gas provider Gas South that allows Union City residents and businesses to receive discounted rates on natural gas service.

Through this program, residents of Union City will be eligible to receive a special discount of two cents per therm off all of Gas South's standard rates – when they either sign up with Gas South or register their existing accounts – for as long as they remain customers. Special, customized rates also are available from Gas South for mid-size and large commercial customers in Union City.

Residents or businesses can sign up or register their existing accounts to receive the Union City discount by calling Gas South at 1-866-563-8129, or by visiting [www.gas-south.com/unioncity](http://www.gas-south.com/unioncity). New customers enrolling by October 4 will receive a special partnership rate of only 67 cents per therm for six and 12-month fixed rate plans, with no enrollment fee.

These special rates also are available to existing Gas South customers in Union City who receive service under the company's variable rate plan or whose fixed rates expire in September. Gas South's rates are re-set on the 5<sup>th</sup> day of each month, and the two cent per therm discount will apply to the Gas South rates in effect each month.

"Union City is a dynamic community with a rich history and a vibrant future", said Kevin Greiner, CEO of Gas South. "As a hometown Georgia company, Gas South is proud to partner with the Union City to offer these special discounted rates on natural gas to Union City residents and businesses, and deepen our community engagement."

The partnership will benefit local residents and businesses, helping them stretch their utility dollars by getting optimal pricing supported by an established and credible natural gas service provider – that also has been the fastest-growing natural gas provider in Georgia over the past three years. The partnership also will benefit the City of Union City, which will receive funding from Gas South for each household and business that receives natural gas service from Gas South.

"The Gas South city partner program has been very successful in numerous metro Atlanta communities because it benefits residents, businesses and the partner cities," said Union City Mayor Ralph Moore. "We are confident this will be a winning opportunity for Union City and we look forward to working with Gas South on this special program."

The marketing relationship is similar to programs that Gas South has formed with municipalities in Georgia to offer preferred natural gas rates. In addition to the City of Union City, Gas South has similar programs with the cities of Acworth, College Park, Kennesaw, Marietta, Norcross, Roswell, Sandy Springs and Woodstock.
