

About Gas South

Gas South is Georgia's third-largest and fastest growing natural gas marketer. Formed in 2006, Gas South is a wholly-owned subsidiary of the Cobb Electric Membership Corporation (Cobb EMC). Since then, Gas South has expanded its market share and customer base to more than 250,000 residents, businesses and organizations throughout Georgia.

Gas South's sustained growth and success are attributable to a culture of innovation, collaboration and commitment to the communities it serves. The company has formed alliances with 10 municipalities, one county and six EMCs, offering discounted rates to residents and businesses in these communities. This unique public-private partnership also provides new sources of revenue for communities to use to build parks, expand recreation facilities and support government operations. Gas South also partners with social service agencies to offer affordable natural gas service to credit-challenged customers. In 2008, the company launched its Pay-As-You-Go program, which allows customers to purchase gas service without a down payment while rebuilding their credit. The program, which was the first of its kind, has provided natural gas service to tens of thousands of underserved households in Georgia.

As Georgia's hometown natural gas provider, Gas South is proud to help keep jobs in Georgia. In 2012, the company "insourced" its customer service operation and welcomed more than 100 new employees to its customer care center. This step helped to create jobs in Georgia and ensured that customer service would be provided locally. With all of its employees living and working in Georgia, Gas South strives to distinguish itself by giving back to the communities it serves. In 2012, Gas South donated more than \$500,000 to local non-profit organizations. That is in addition to the thousands of hours of volunteer work that employees donated to charitable organizations, chambers and industry associations through the "Gas South Cares" volunteer program. Gas South is also committed to providing clean energy opportunities. As the state's leading supplier of compressed natural gas for alternative fueled vehicles, Gas South is committed to supporting the growth of compressed natural gas throughout Georgia. Gas South is the supplier for six of the state's seven public CNG fueling stations.

Gas South is also the industry's leading participant in business associations across Georgia, demonstrating its support for a strong business climate. Gas South prides itself on being the official natural gas provider for the State of Georgia, the Atlanta Braves, the Cobb Energy Performing Arts Centre and the Gwinnett Arena. Proud of its growth and commitment to its customers, Gas South looks forward to further engaging the community and fulfilling its ongoing promise of excellence to the people it serves.
